There is a general email address which can be used for administrative purposes and general enquiries such as requests for visits to meetings and community events or just to let the police know what is going on. **Do not use this email address to report crime.**

test.valley.police@hampshire.pnn.police.uk

Neighbourhood crime maps are now available on the Hampshire Constabulary website. Follow the link to see crime levels in your local area over recent months. [Crime Maps](#)

Good News –

Casey Orleans-Thompson from London has been sentenced to three years in a young offender institute for dealing cocaine and heroin. Sadly on one occasion the drugs he dealt caused two fatalities, one in Andover and one in Wiltshire, with others falling seriously ill.

Douglas Peter Strike of no fixed abode has been sentenced to 18 months in prison for a number of incidents in Andover whereby he has shoplifted numerous times, threatened shop workers and also assaulted a police officer.

Several bicycles have been stolen this month - Hampshire Police recommends this useful site for **stolen bicycles –**

<http://www.findthatbike.co.uk/> is a site that will send emails to the registered person to advise of any bike put up for sale on Gumtree or EBay which matches specifics entered by the user. The aggrieved can enter their bike details, and any bikes matching the description that are put up for sale will trigger a notification that will be sent to them by email.

It also has a section to check for bike serial numbers (for those thinking of buying, to check if stolen) and to report stolen bikes also.

Please maintain your vigilance in relation to **rogue traders and cold callers** operating in our area. There are regular reports of cold callers making phone calls and visits to residential addresses selling goods and purporting to be from reputable companies. If anyone contacts you offering any kind of building repair or service, please take details (names, addresses, phone numbers, etc) and use the internet and trading standards to check out the credibility of the company concerned. We have had reports of individuals who falsely use a company name to promote their business and to try to obtain money for work which is not necessary. PLEASE keep an eye on elderly or vulnerable friends, neighbours and relatives to help prevent them from becoming victims of such scams (is there work being carried out which looks suspicious, do they have frequent visits from unlikely 'friends') and report any such activity to Police on 101 or Trading Standards on 03454 040506.

Check out '**The Little Book of Scams**', the third edition reproduced by kind permission of the Metropolitan Police Service which is the best and most current guide to many of the scams currently operating in the UK.

[The Little Book of Scams](#)

Did you knowThe 999 is the world's oldest emergency call service launched in 1937 after five women died in a London fire. BT now receives 30 million emergency calls a year – either to 999 or 112, the European emergency services number which works in all European Union countries.

Initially a red lamp turned on and a klaxon siren sounded to alert operators when a call came in.

If you have any information in relation to any criminal or suspicious activity please report it to the Police on **101** or anonymously via **Crimestoppers on 0800 555 111 or on line at crimestoppers-uk.org**.
